Coding Languages

- Java
- C++/C#
- Python
- GDscript

Expertise

- Game Development
- Creativity
- 3D Modelling
- Game Balancing
- Graphic Design

Experience

Pirate Software Game Jam

I scored in the top Third of Contestants in my first attempt. I had minimal support and was working in a new language. I created all my work from scratch and did work in godot and blender to create my final product

Personal Projects

I have been working on personal coding projects in my own time between studying with a few already being useable. Such as a dnd dice and initiative Tracker and a Strategy game that can be found in my Github.

Education

North West University

Bachelor of Information Technology
2022 - Current

Skills Summary

Game Balancing	<div><div></div></div> 78 %
